Experience

Bridon Industries, Contracted Web Developer

August 2015 - April 2016

- Example of my work at <http://bridonindustries.com>
- The website I built directly contributed to highest monthly sales in the history of the company.
- Review of my work and letter of recommendation can be found at <https://goo.gl/WDEebG>

Freelance Web Developer

June 2015 - present

- Build web applications based on client requests and project scope documents
- Communicate effectively with team members in a succinct and clear format
- Meet deadlines and create project roadmaps

Mecono, Developer

August 2016 - Present

- "Mecono is a hardware/protocol level project that enables P2P internet access using trustless discovery of how isolated nodes are connected and the indirect paths through the mesh between nodes."
- Long term personal project

Volunteer Computer Science Tutor, University of Minnesota Duluth

September 2017 - Present

President, Crypto Club at the University of Minnesota Duluth

January 2016 - Present

Amazon.com, Warehouse Associate

May 2016 - August 2016

Other Projects: I've worked on many other code projects that don't fit into this experience section. For code examples and work, see <http://jaksonkallio.github.io>
